

Know thyself

Citation for published version (APA):

Terneusen, A. (2023). *Know thyself: theoretical and neurobehavioral perspectives on self-awareness*. [Doctoral Thesis, Maastricht University]. Maastricht University. <https://doi.org/10.26481/dis.20230908at>

Document status and date:

Published: 01/01/2023

DOI:

[10.26481/dis.20230908at](https://doi.org/10.26481/dis.20230908at)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Propositions

1. There is not one measure of self-awareness. (*this thesis*).
2. Impairments in self-awareness after acquired brain injury are associated with psychological and neurocognitive factors. (*this thesis*).
3. Socratic Feedback should be offered more in rehabilitation care after acquired brain injury. (*this thesis*).
4. Paradoxically, if you can measure a patient's impaired self-awareness, the problem of impaired self-awareness does not exist. (*this thesis*).
5. Null findings contribute significantly to our knowledge.
6. Neuropsychological rehabilitation requires the engagement of the social environment.
7. A transdisciplinary approach is crucial for maximizing the effectiveness of rehabilitation after acquired brain injury.
8. Every clinician knows what impaired self-awareness is, but few clinicians know how to treat it.
9. Hofstadter's Law: it always takes longer than you expect, even when you take into account Hofstadter's Law. (*D. Hofstadter, 1979*).
10. There is only one way to eat an elephant: one bite at a time. (*Desmond Tutu*).
