

Primary and secondary nonresponse following bariatric surgery

Citation for published version (APA):

Uittenbogaart, M. (2024). *Primary and secondary nonresponse following bariatric surgery*. [Doctoral Thesis, Maastricht University]. Maastricht University. <https://doi.org/10.26481/dis.20240315mu>

Document status and date:

Published: 01/01/2024

DOI:

[10.26481/dis.20240315mu](https://doi.org/10.26481/dis.20240315mu)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

STELLINGEN BEHORENDE BIJ HET PROEFSCHRIFT

Primary and secondary nonresponse following bariatric surgery

- 01 Het analyseren en behandelen van nonresponse is de grootste uitdaging na bariatrische chirurgie | dit proefschrift
- 02 Wereldwijd geaccepteerde uniforme definities voor nonresponse zijn essentieel voor betrouwbare data-analyse en kan in de dagelijkse praktijk over- of onderbehandeling voorkomen | dit proefschrift
- 03 De termen 'weight loss failure' en 'weight regain' zijn stigmatiserend en misleidend | dit proefschrift
- 04 Elke bariatrische patiënt met nonresponse moet besproken worden in een multidisciplinair overleg om zo beschermd te worden tegen onnodige diagnostiek en experimentele chirurgische interventies | dit proefschrift
- 05 Reductie van nonresponse na bariatrische chirurgie is essentieel voor het verhogen van de kosteneffectiviteit en voor het verbeteren van de kwaliteit van leven voor de patiënt | Impact
- 06 Bad eating habits are not sufficient to explain the worldwide explosion in obesity
| Martin J. Blaser in 'Germs are us' in The New Yorker, 2012
- 07 The phenomenal increase in knowledge regarding treating obesity has outstripped our ability to prevent the disease
| Carel Le Roux, 2023
- 08 When there is no place for the scalpel, words are the surgeon's only tool | Paul Kalanithi
- 09 Family support determines who finds success and who does not
| dr Nowzaradan, My 600lbs Life
- 10 I have not failed, I've just found 10000 ways that won't work
| Thomas A Edison
