

Real-Time Molecular Patterns to support Intraoperative Decision-Making

Citation for published version (APA):

Vaysse, P.-M. (2020). *Real-Time Molecular Patterns to support Intraoperative Decision-Making*. [Doctoral Thesis, Maastricht University]. Maastricht University. <https://doi.org/10.26481/dis.20201028pv>

Document status and date:

Published: 01/01/2020

DOI:

[10.26481/dis.20201028pv](https://doi.org/10.26481/dis.20201028pv)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Propositions accompanying the dissertation

Real-time molecular patterns to support intraoperative decision-making

by Pierre-Maxence Vaysse, October 28th 2020

1. A cell is the basic unit of life and one tumour cell does not imply clinical manifestations of cancer. *this thesis*
2. Bringing the biological sample and the analysis closer together makes results more reliable. *this thesis*
3. The benefit of a technology resides beyond the comparison to a gold standard. *this thesis*
4. Rare cancers may benefit from the translational findings of metabolic phenotyping. *this thesis*
5. Intraoperative diagnostics is an attention grabbing application of technology-based research fields. *this thesis, valorisation*
6. Nothing is lost, nothing is created, everything is transformed.
Antoine Lavoisier
7. It says we do not know the balance between innovation and replication.
Elizabeth Levy Paluck
8. If I succeed in this mission, I will be very happy to join the clogmaker and the blacksmith on local village fairs, to demonstrate the suturing and cutting skills that once belonged to a very high esteemed profession.
Nicole D. Bouvy
9. The green reed, which bends in the wind, is stronger than the mighty oak, which breaks in a storm.
Confucius
