DOI:

[10.26481/dis.20191111vy](https://doi.org/10.26481/dis.20191111vy)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Propositions belonging to the PhD thesis

1. Patients mostly strive to adhere to their treatment, but structural barriers prevent them from doing so [PhD thesis]
2. It is difficult to combine one's role as researcher with that of the project manager [PhD thesis]
3. Establishing collaboration with the private health sector in India takes patience, perseverance and, an eye for context [PhD thesis]
4. Surprisingly little attention has been paid to the ground-level experiences of health workers tasked with implementing partnership initiatives [PhD thesis]
5. Automation and Technology don't cure behavioural ruts: they just create new instances of them [Kenneth Goldsmith]
6. The secret of human freedom is to act well, without attachment to the results [Bhagavad Gita]
7. A leader takes people where they want to go. A great leader takes people where they don't necessarily want to go, but ought to be [Rosalynn Carter]
8. Public Private Mix approach is a form of behaviour change for both sides: for the public sector in their approach towards engaging the private sector and for the private sector in changing their Tuberculosis management practices.
