Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

providing details and we will investigate your claim.

- 31 SU-AM **Spatial topography (fMRI) and spectro-temporal brain dynamics (EEG) during mental imagery of scenes**, *A.W. de Borst, A.T. Sack, B.M. Jansma, F. Esposito, F. de Martino, G. Valente, F. di Salle, R. Goebel, E. Formisano, Maastricht University, Maastricht, Netherlands*
- 33 SU-AM **Neural correlates of subliminal and conscious visual perception – an fMRI study**, *F.Ph Fischmeister, V. Schöpf, CH. Windischberger, E. Moser, H. Bauer, MR Center of Excellence, Medical University of Vienna, Vienna, Austria*
- 35 SU-AM **In-depth human brain mapping : systematic and personalized investigation of multiple functional networks with intra-cerebral EEG**, *JP Lachaux, JR Vidal, T Ossandon, K Jerbi, P Kahane, INSERM U821, Lyon, France*
- 37 SU-AM **Beyond the right parietal – multimodal imaging of mental rotation**, *B Milivojevic, MC Corballis, JP Hamm, University of Glasgow, Glasgow, United Kingdom*
- 39 SU-AM **A transmodal self-monitoring network: A combined fMRI study of auditory-speech monitoring and visuomotor monitoring of temporal incongruence**, *K Schnell, F Schaebe, H Walter, University Hospital of Bonn, Department of Psychiatry Div. Medical Psychology, Bonn, Germany*
- 41 SU-AM **Predicting evoked and induced EEG responses during mental visual imagery using fMRI and multivariate regression**, *F. De Martino, A. de Borst, G. Valente, R. Goebel, E. Formisano, Department of Cognitive Neuroscience, Faculty of Psychology and Neuroscience, Maastricht University, Maastricht, Netherlands*
- 43 SU-AM* (O-SU1) **Within- and between-networks resting state fMRI connectivity reflects the level of consciousness during anesthesia**, *P Boveroux, A Vanhaudenhuyse, S Lauwick, MA Bruno, A Soddu, Q Noirhomme, ME Faymonville, A Luxen, G Moonen, C Phillips, JF Brichant, V Bonhomme, P Maquet, M Greicius, S Laureys, M Boly, Coma Science Group, Cyclotron Research Center, University of Liège, Liège, Belgium*
- 45 SU-AM **The neural processing of violent computer gaming and real scenarios in gamers and non-gamers**, *C Regenbogen, M Herrmann, T Fehr, Dept. of Neuropsychology and Behavioral Neurobiology, University of Bremen, Germany*
- 47 SU-AM **Automatic (bottom-up) and Strategic (top-down) Extraction of Facial Features over the N170 Event Related Potential**, *LS Frei, ML Smith, PG Schyns, Centre for Cognitive Neuromaging, Department of Psychology, University of Glasgow, Glasgow, United Kingdom*
- 49 SU-AM **Functional Connectivity of Precuneus/Posterior cingulate cortex during self face and personally familiar face processing**, *R Ramasubbu, B goodyear, I gaxiola, S Maslovitch, HS Mayberg, Emory University, Atlanta, GA, USA*
- 51 SU-AM **Cortical Thickness in Intraparietal Sulcus Predicts Success in Performing Musical Transformation Judgments**, *N.E. Foster, R.J. Zatorre, Montreal Neurological Institute, McGill University, Montreal, QC, Canada*
- 53 SU-AM **Frequency-Specific Changes in TMS-Evoked Cortical Activity in Open Eye and Closed eye Conditions**, *K Kitajo, R Miyota, M Shimono, K Yamanaka, Y Yamaguchi, Laboratory for Dynamics of Emergent Intelligence, RIKEN Brain Science Institute, Wako, Japan*
- 55 SU-AM **Time Resolved Determination of the Content of Visual Perception from fMRI-Data**, *J.W. Rieger, C. Reichert, M. Höfer, C. Tempelmann, H.-J Heinze, Dept. of Neurology, Otto-von-Guericke University, Magdeburg, Germany*
- 57 SU-AM **Key note of intrinsic default network shifts between resting and task state**, *F.Y Chen, H. J He, Y. Z Hu, F. L Du, Z. K Wang, J. Z Sun, W. M Zhang, Bio-X Laboratory, Department of Physic, Zhejiang University, Hangzhou, China*
