Document status and date:

Published: 01/01/2011

DOI:

[10.26481/dis.20110923id](https://doi.org/10.26481/dis.20110923id)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Behorende bij het proefschrift

The role of arginine in human wound healing

Iris Debats

Maastricht, 23 september 2011

1. Het is zeer aannemelijk dat er arginine verbruikt wordt door de normale huid. *Dit proefschrift.*
2. Tijdens humane wondgenezing zijn de enzymen die arginine omzetten verhoogd aanwezig, dit suggereert arginine verbruik. *Dit proefschrift.*
3. In tegenstelling tot wondgenezing bij dieren, versnelt arginine suppletie de humane wondgenezing niet. *Dit proefschrift.*
4. Verhoogd verbruik van arginine door geïnfecteerde chronische wonden leidt tot een significante daling van het plasma arginine. *Dit proefschrift.*
5. Minister Schippers, u snijdt en wij schipperen verder.
6. The hand that rocks the cradle, is the hand that rules the world.
W.R. Wallace (1819-1881)
7. Gezichtstransplantatie is de ultieme samensmelting van alle facetten van de plastische chirurgie.
8. Het gebruik van stamcellen uit vet opent een nieuw hoofdstuk voor de plastische chirurgie. *Cherubino et al, Ann Plast Surg, 2011; 66:210-215.*
9. Een handchirurg moet de vinger aan de pols houden op de spoedeisende hulp.
10. Life starts at the end of your comfort-zone.
11. Anti-aging houdt zich bezig met het tegengaan van veroudering. Man-aging resulteert bij menig specialist tot versnelde veroudering.
