

Morphological aspects of the loss of phospholipid asymmetry of the cell membrane

Citation for published version (APA):

Stuart, M. C. A. (1998). *Morphological aspects of the loss of phospholipid asymmetry of the cell membrane*. Universiteit Maastricht. <https://doi.org/10.26481/dis.19981030ms>

Document status and date:

Published: 01/01/1998

DOI:

[10.26481/dis.19981030ms](https://doi.org/10.26481/dis.19981030ms)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

"Morphological aspects of the loss of phospholipid asymmetry
of the cell membrane"

Marc C. A. Stuart

- 1 Verlies van membraan-fosfolipiden-asymmetrie tijdens vroege fasen van celstimulatie is een lokaal fenomeen dat beperkt blijft tot afgesnoerde membraanvesikels (dit proefschrift).
- 2 Algeheel verlies van membraan-asymmetrie gaat gepaard met drastische morfologische veranderingen (dit proefschrift).
- 3 Het gebruik van de "bare grid" methoden voor cryo-elektronenmicroscopie blijft beperkt tot gebruikers van 35 mm camera's.
- 4 Diegenen die de basis hebben gelegd voor de grote kapitaaloverschotten van de Nederlandse pensioenfondsen, profiteren daar nu onvoldoende van.
- 5 Het is onwaarschijnlijk dat drukwerk zal worden vervangen door digitale opslag.
- 6 2-D or not 2-D, that's the question.
- 7 Artikel 3.8 van de CAO Nederlandse Universiteiten mist haar doel, zolang 3e en 4e geldstroom aan individuele onderzoekers toegekend worden.
- 8 Er is leven na apoptose.
- 9 Overleven is nu de missie in "Biosphere 2", de levensvatbaarheid van "Biosphere 1" (de aarde) is nog immer de vraag.
