Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Supervision, compliance and societal effects

IMPACT ASSESSMENT OF THE TOBACCO LEGISLATION

Effects of the workplace-smoking ban and the tobacco sales ban to minors

(Wendy) M.I. Verdonk-Kleinjan

1. Laaggeschoolde en mannelijke werknemers profiteren minder van de verplichte rookvrije werkplek dan andere werknemers. (dit proefschrift)
2. Invoering van de rookvrije werkplek gecombineerd met accijnsverhoging leidt bij werknemers tot een grotere daling in tabaksconsumptie dan de som van de afzonderlijke maatregelen. (dit proefschrift)
3. Het effect van de invoering van de leeftijdsgrens voor tabaksaankoop is het grootst bij niet-rokers. (dit proefschrift)
4. De termijn waarop effecten van tabakswetgeving te verwachten zijn betreft eerder jaren dan maanden. (dit proefschrift)
5. De ontwikkeling van effectief toezicht vereist inzicht in de mate van naleving en kennis over de naleefmotieven. (dit proefschrift)
6. Telefonische interviews en fysieke inspecties zijn beiden valide om op populatieniveau de mate van naleving van de rookvrije werkplek vast te stellen. (dit proefschrift)
7. Om evidence-based keuzes te maken binnen het toezicht moet meer evaluatieonderzoek worden gedaan. (valorisatie)
8. Nederland is, vergeleken met andere geïndustrialiseerde landen, traag geweest met de invoering van tabakswetgeving.
9. If you do not measure results, you cannot tell success from failure. (Osborne & Gaebler)
10. The most important purpose of evaluation is not to prove, but to improve. (D.L. Stufflebaum)
11. Uitgesteld geluk bestaat niet.
