Roefs, A. J. (2004). *The pleasure of food in abnormal eating : a cognitive approach*. [Doctoral Thesis, Maastricht University]. Datawyse / Universitaire Pers Maastricht. <https://doi.org/10.26481/dis.20041209ar>

Document status and date:

Published: 01/01/2004

DOI:

[10.26481/dis.20041209ar](https://doi.org/10.26481/dis.20041209ar)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

STELLINGEN

1. Indirecte maten zijn eerder gevoelig voor het onderwerp van aandacht dan voor stabiele persoonskenmerken.
2. Het instellen van een proefpersoonverplichting voor de Nederlandse bevolking zou de psychologische wetenschap minder traag maken.
3. Flexibiliteit is een goede eigenschap, maar niet voor psychologische theorieën.
4. Van genen word je niet dik, van chocola wel.
5. Dwangmatig controleren is geen efficiënte manier om fouten te voorkomen.
6. Tussendoor word je het dikst.
7. "Maak je niet dik, dun is de mode" (Conny Vink, 1970). Wat dit betreft, is er niet veel veranderd.
8. Genieten van eten kun je niet meten met indirecte maten.
