

Storage solutions

Citation for published version (APA):

Walenbergh, S. M. A. (2016). *Storage solutions: novel ways for the detection and inhibition of non-alcoholic steatohepatitis*. [Doctoral Thesis, Maastricht University]. Maastricht University. <https://doi.org/10.26481/dis.20160129sw>

Document status and date:

Published: 01/01/2016

DOI:

[10.26481/dis.20160129sw](https://doi.org/10.26481/dis.20160129sw)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Storage solutions: Novel ways for the detection and inhibition of non-alcoholic steatohepatitis

Sofie Walenberg
Maastricht, 29 januari 2016

1. Lysosomal cholesterol storage inside Kupffer cells, particularly the oxidized cholesterol, triggers hepatic inflammation. *(dit proefschrift)*
2. Anti-oxLDL antibodies prevent macrophage-mediated oxLDL uptake and improve lysosomal function and hepatic inflammation. *(dit proefschrift)*
3. Plasma cathepsin D could serve as a non-invasive method to improve NASH diagnosis in children and adults. *(dit proefschrift)*
4. A potential distinct disease pathology exists between NASH in children and adults. *(dit proefschrift)*
5. Non-invasive tests reduce, but do not abolish, the need for a liver biopsy. *(EASL, Journal of Hepatology 2015)*
6. Common diseases may provide answers for the diagnosis and treatment of rare diseases.
7. When it comes to health and disease, small lysosomes have big responsibilities.
8. We can only dream of one safe and effective pill to cure obesity.
9. Efficiënt teamwerk maakt de wetenschap sterk.
10. Haast je wanneer er tijd is, dan heb je tijd wanneer er haast is. *(auteur onbekend)*
