Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

'The role of free fatty acids in ectopic lipid accumulation, insulin resistance and inflammation in humans'

N.A. van Herpen – 26-04-2012

1. Een verminderde mitochondriële functie na 60 uur vasten geeft aan dat mitochondriële dysfunctie eerder een gevolg is van insulineresistentie dan een oorzaak. *(dit proefschrift)*
2. Bij jonge gezonde volwassenen leidt een verhoging van de hoeveelheid vrije vetzuren in het bloed niet tot een verhoging van de hoeveelheid ontstekingsstoffen in het bloed. *(dit proefschrift)*
3. Het iso-energetisch uitwisselen van koolhydraten voor vet in de voeding gedurende 3 weken zorgt voor een verhoging van de hoeveelheid vet in de lever, maar heeft geen effect op insulinegevoeligheid. *(dit proefschrift)*
4. Het iso-energetisch uitwisselen van koolhydraten voor vet in de voeding zorgt voor een verminderde metabole flexibiliteit. *(dit proefschrift)*
5. The most incomprehensible thing about the world is that it is all comprehensible. *(Albert Einstein, 1879 - 1955)*
6. Statistics are like swim-wear: what they reveal is suggestive but what they conceal is vital. *(The Lancet 2007; 369: 1234)*
7. Even when all is known, the care of a man is not yet complete, because eating alone will not keep a man well; he must also take exercise. For food and exercise, while possessing opposite qualities, yet work together to produce health. *(Hippocrates ca. 460 v. Chr. – 370 v. Chr.)*
8. Tell me what you eat, and I will tell you what you are. *(Anthelme Brillat-Savarin, 1755 - 1826, The Physiology of Taste, 1825)*
9. The first law of dietetics seems to be if it tastes good, it is bad for you. *(Isaac Asimov, 1920 - 1992)*
10. Het geluid van een kus is niet zo hard als een kanonschot, maar de echo blijft veel langer hangen. *(Oliver Wendel Holmes 1841 - 1935)*
11. Sports do not build character. They reveal it. *(Heywood Broun, 1888 - 1939)*
