

# Advanced glycation and type 1 diabetes

Citation for published version (APA):

Nin, J. W. M. (2012). *Advanced glycation and type 1 diabetes*. [Doctoral Thesis, Maastricht University]. Maastricht University. <https://doi.org/10.26481/dis.20120607jn>

## Document status and date:

Published: 01/01/2012

## DOI:

[10.26481/dis.20120607jn](https://doi.org/10.26481/dis.20120607jn)

## Document Version:

Publisher's PDF, also known as Version of record

## Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

## Advanced glycation and type 1 diabetes

Maastricht, 7 juni 2012

**Johanna Nin**

1. Geavanceerde glycering vormt een brug tussen type 1-diabetes en vasculaire complicaties. *(dit proefschrift)*
2. Advanced glycation endproducts, receptor for advanced glycation endproducts en high-mobility group box-1 vormen aangrijpingspunten in de preventie en behandeling van vasculaire complicaties van type 1 diabetes. *(dit proefschrift)*
3. Het verband tussen hogere plasmaspiegels soluble receptor for advanced glycation endproducts en hart-en vaatziekten bij type 1-diabetes wordt deels verklaard door nierdisfunctie. *(dit proefschrift)*
4. De processen laag-gradige ontsteking en arteriële verstijving versterken elkaars effect op hoger risico van hart- en vaatziekten bij type 1-diabetes boven het verwachte risico gebaseerd op de optelsom van hun effecten. *(dit proefschrift)*
5. Essentially, all models are wrong, but some are useful (G.E.P. Box & N.R. Draper).
6.  $P > 0,05$  wil niet zeggen dat de nulhypothese juist is.
7. Wisdom comes with AGE.
8. Accelerated AGEing of the computer is a negative confounder in the positive association between input and output.
9. To make an end is to make a beginning. (naar T.S. Eliot)
