Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Propositions

belonging to the thesis entitled

Chemotherapy-associated liver injury: mechanisms and impact on clinical outcome

Junfang Zhao, 8 September 2017

1. Patients with initially resectable colorectal liver metastases should receive immediate hepatectomy without neoadjuvant chemotherapy.
 - this dissertation
2. Bevacizumab should be added to chemotherapeutic regimens in patients with colorectal liver metastases to prevent sinusoidal dilatation and diminished complete tumour response.
 - this dissertation
3. Hepatic miR-21 and miR-150 play a role in the development of oxaliplatin-induced sinusoidal dilatation.
 - this dissertation
4. Surgical management should be adapted in the presence of chemotherapy-associated liver injury in patients with colorectal liver metastases.
 - this dissertation
5. Myosteatosis should be assessed preoperatively by CT-scans as a prognostic factor for survival in patients with pancreatic cancer.
 - David van Dijk et al. *J Cachexia Sarcopenia Muscle* 2017
6. Laparoscopic hepatectomy decreases postoperative complication rates compared with open hepatectomy in patients with colorectal liver metastases
 - Asmund Fretland et al. *Ann Surg* 2017
7. Ninety-day postoperative mortality is a legitimate measure of hepatopancreatobiliary surgical quality.
 - Yoshihiro Mise et al. *Ann Surg* 2015
8. Knowledge is of no value unless you put it into practice.
 - Anton Chekhov
9. The good physician treats the disease; the great physician treats the patient who has the disease.
 - William Osler
10. 做人要知足，做事要知不足，做学问要不知足。(To be a man, you should not be greedy; to do things, you should know your limitation; to learn knowledge, you should have insatiable desire.)
 - 裘法祖(Fazu Qiu)
