## Document Version:

Publisher's PDF, also known as Version of record

## Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

# STELLINGEN

BEHORENDE BIJ HET PROEFSCHRIFT

## THE ACCUMULATION OF ADVANCED GLYCATION ENDPRODUCTS IN DIABETES AND ITS RELATION TO VASCULAR DISEASES

1. Mensen met type 1 of type 2 diabetes hebben meer *advanced glycation endproducts* dan de algemene bevolking (dit proefschrift)
2. Ophoping van *advanced glycation endproducts* is gerelateerd aan vaatwandstijfheid, en deze relatie is sterker bij mensen met type 2 diabetes dan bij de algemene bevolking (dit proefschrift)
3. Autofluorescentie van de huid, als maat voor ophoping van *advanced glycation endproducts* in het lichaam, laat een consistente relatie zien met maten van vaatschade. *Advanced glycation endproducts* gemeten in plasma doen dat niet (dit proefschrift)
4. *Understanding (...) AGE-induced effects on extracellular and intracellular functions will serve to expedite the process of finding effective therapies that block excessive accumulation of these species* – Alison Goldin
5. De praktijk van *evidence-based medicine* vereist de integratie van het beste externe bewijsmateriaal dat vanuit klinisch-epidemiologisch onderzoek beschikbaar is met individuele klinische expertise– H. Burger en A. Hofman
6. *It is not surprising that these disorders as a result of diabetes are named complications, given that the dictionary meaning of the word complicated is 'something that is difficult to analyse or understand'* – J. Forbes and M.E. Cooper
7. *Type 1 diabetes is a great example whereby, giving the patient the tools, they can manage themselves very well* - Clayton Christensen
8. Niet elk gevonden statistisch significant verschil is relevant voor het handelen - A. Knuistingh Neven
9. *Things never work as they are expected to. That is the beauty of science* – Film 'The Prestige'
10. Als je op zoek bent naar een waarheid die volledig is en ongenueanceerd, creëer je regels en protocollen, geen wetenschap
11. *When you think you know it all, you're just fooling yourself* - Visleverancier van Jiro Ono, 3 sterren sushi chef in Tokyo
