

Modification of the mandibular split based on a physical model

Citation for published version (APA):

Böckmann, R. A. (2017). *Modification of the mandibular split based on a physical model: experimental animal and clinical studies*. [Doctoral Thesis, Maastricht University]. Datawyse / Universitaire Pers Maastricht. <https://doi.org/10.26481/dis.20171207rb>

Document status and date:

Published: 01/01/2017

DOI:

[10.26481/dis.20171207rb](https://doi.org/10.26481/dis.20171207rb)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Stellingen

behorende bij het proefschrift

Modification of the mandibular split based on a physical model. Experimental animal and clinical studies

1. Zo elegant als de techniek van de sagittale splitsing is, zo lastig is die uit te voeren. (Dit proefschrift)
2. Het is eenvoudiger één vlak te splitsen dan twee vlakken die loodrecht op elkaar staan. (Dit proefschrift)
3. De kans dat een splijting bij een BSSO volgens Obwegeser door de canalis mandibulae loopt is bijna 50%. (Dit proefschrift)
4. Een BSSO volgt de regels van de mechanica. (Dit proefschrift)
5. De bisfosfonaat gerelateerde osteonecrose van de kaak werd 100 jaar geleden al beschreven maar is nog steeds niet algemeen bekend.
6. Elke afwijking in de mondholte die niet binnen 14 dagen geneest behoort gebiopteerd te worden.
7. Om een zenuw niet te beschadigen moet men zorgen dat deze onzichtbaar blijft.
8. De uitslag van de eindige-elementenmethode moet wel overeen komen met de realiteit. (Dit proefschrift)
9. Better a lucky surgeon than a good surgeon.
10. “Je ziet alleen wat je kent.” (Johann Wolfgang von Goethe)
