Peeters, R. E. J. (2025). All that glitters isn't gold: Examining how and why organizations collaborate to address wicked problems in healthcare. [Doctoral Thesis, Maastricht University]. Maastricht University. <https://doi.org/10.26481/dis.20250125rp>

Document status and date:

Published: 24/01/2025

DOI:

[10.26481/dis.20250125rp](https://doi.org/10.26481/dis.20250125rp)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

All that glitters isn't gold

Examining how and why organizations collaborate to address wicked problems in healthcare

Robin Peeters

1. Samenwerken is een middel om een doel te behalen, geen doel op zich.
(dit proefschrift)
2. De ervaren effectiviteit van netwerkactoren komt niet overeen met de impact die netwerken daadwerkelijk in de praktijk hebben. (dit proefschrift)
3. Stoppen met wat niet werkt is minstens net zo belangrijk als doorgaan met wat wel werkt. (dit proefschrift)
4. Omdat veel interacties tussen netwerkdeelnemers ook buiten formele vergaderingen om plaatsvinden, zijn netwerken bijzonder moeilijke onderzoeksobjecten.
(dit proefschrift)
5. De zorg zou georganiseerd moeten worden achter een 'veil of ignorance' zodat middelen rechtvaardig verdeeld kunnen worden.
6. Zolang het organisatiebelang prevaleert boven het maatschappelijk belang is samenwerking een hol vat.
7. Meestal willen mensen én betere zorg én daar niet extra voor betalen; dat is onverenigbaar, zeker gezien de grote spanning die al op de zorg staat.
(Gerard Adelaar in *Trouw*, 2023)
8. Bevindingen uit wetenschappelijk onderzoek krijgen pas waarde als ze hun weg naar de praktijk vinden.
9. To be a scientist is to be naïve; we are so focused on our search for truth, we fail to consider how few actually want us to find it. (Valery Legasov, in *Chernobyl*)
10. If men define situations as real, they are real in their consequences.
(William Isaac Thomas and Dorothy Thomas, the Thomas Theorem, 1928)
11. We used, you and I, the same language, the same words, but what fault is it of ours, yours and mine, if words, in themselves, are empty?
(Luigi Pirandello in *One, No One, and One Hundred Thousand*, 1926)
