

Reperfusion cardiac arrhythmias and their relation to reperfusion induced cell death

Citation for published version (APA):

van der Weg, K. (2018). *Reperfusion cardiac arrhythmias and their relation to reperfusion induced cell death*. Proefschriftmaken.nl | Uitgeverij Boxpress. <https://doi.org/10.26481/dis.20181221kw>

Document status and date:

Published: 01/01/2018

DOI:

[10.26481/dis.20181221kw](https://doi.org/10.26481/dis.20181221kw)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

behorende bij het proefschrift

Reperfusion cardiac arrhythmias and their relation to reperfusion induced cell Death

1. De ruime meerderheid van patiënten die behandeld wordt voor een acuut myocard infarct ervaart reperfusie schade. *(Dit proefschrift)*
2. Een eruptie van ventriculaire aritmieën (VA burst) bij de opening van het infarctvat duidt op reperfusieschade. *(Dit proefschrift)*
3. Reperfusieschade leidt tot een verdubbeling van de infarct grootte. *(Dit proefschrift)*
4. Bij de behandeling van het hartinfarct dient meer aandacht te worden besteed aan reperfusieschade. *(Dit proefschrift)*
5. In de zoektocht naar een behandeling voor reperfusie schade zou de marker VA burst gebruikt moeten worden. *(Dit proefschrift)*
6. Our profession is the only one which works unceasingly to annihilate itself. *(Martin H. Fischer)*
7. In een tijdperk met geavanceerde aanvullende diagnostiek dient de waarde van het lichamenlijk onderzoek en de anamnese niet vergeten te worden.
8. De frequente niet leverbaarheid van medicatie is een van de grote behandelbeperkingen in de dagelijkse huisartsenzorg.
9. *Ἐν οἶδα, ὅτι οὐδέν οἶδα.* ('Ik weet dat ik niets weet') *(Socrates)*
10. The important thing is to not stop questioning. Curiosity has its own reason for existing. *(Albert Einstein)*
11. Life is better in 4 inch heels.
