

Clinical outcomes after innovative lamellar corneal transplantation surgery

Citation for published version (APA):

Cheng, Y. Y. Y. (2015). *Clinical outcomes after innovative lamellar corneal transplantation surgery*. Maastricht University.

Document status and date:

Published: 01/01/2015

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Clinical Outcomes After Innovative Lamellar Corneal Transplantation Surgery

Yanny Y.Y. Cheng

1. De chirurgische stappen van een diep anterieure lamellaire keratoplastiek zijn technisch uitdagender dan een perforerende keratoplastiek. *(dit proefschrift)*
2. Het is twijfelachtig of femtosecond laser-assisted Descemet's stripping endothelial keratoplasty ooit zo effectief zal kunnen zijn als DSAEK met een mechanisch microkeratoom. *(o.a. dit proefschrift)*
3. Bij diep anterieure lamellaire keratoplastiek treedt minder afstoting op ten opzichte van een perforerende keratoplastiek. *(dit proefschrift)*
4. Zowel de diep anterieure lamellaire keratoplastiek als de femtosecond laser-assisted Descemet's stripping endothelial keratoplasty zijn duurder dan de perforerende keratoplastiek, echter alleen de diep anterieure lamellaire keratoplastiek is effectiever. *(dit proefschrift)*
5. Door innovatieve lamellaire cornea transplantatie technieken is het mogelijk om een donor cornea veel doelmatiger te gebruiken.
6. Ondanks de technologische innovaties in de cataractchirurgie, zal de extracapsulaire methode nooit obsoleet worden.
7. Een goede leermeester verdwijnt nooit uit je hoofd.
8. Nothing is more tragic than killing a beautiful theory with ugly facts. *(Albert Einstein)*
9. 最值得自豪的,不在於永不跌倒,而是每次都能爬起來。(孔子)
Our greatest glory is not in never falling, but in getting up every time we do.
(Confucius)
10. 選擇一個你熱愛的工作, 你的人生便不用再工作一天。(孔子)
Choose a job you love, and you'll never have to work a day in your life.
(Confucius)
