## Citation for published version (APA):

Kucukgoncu, S. (2020). *Metabolic disturbances in mental illness*. Digital Printing Partners. <https://doi.org/10.26481/dis.20201214sk>

## Document status and date:

Published: 01/01/2020

## DOI:

[10.26481/dis.20201214sk](https://doi.org/10.26481/dis.20201214sk)

## Document Version:

Publisher's PDF, also known as Version of record

## Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

providing details and we will investigate your claim.

## Metabolic Disturbances in Mental Illness Propositions:

1. Patients with first episode psychosis and mood disorders are high risk groups for diabetes development and a subsequent increase in the risk of diabetes-related complications such as cardiovascular diseases and cognitive deterioration later in life. (from thesis)
2. Weight gain risk was increased about two-fold with antipsychotic use. (from thesis)
3. Antipsychotic exposure may lead to the development of gestational diabetes in pregnancy. (from thesis)
4. Anti-oxidant and anti-inflammatory properties of curcumin may have beneficial effects on cognitive functioning and decrease inflammatory response in patients with schizophrenia. (from thesis)
5. People with severe and persistent mental illness presents a unique population, who have higher cardiovascular disease rates and die earlier than the general population. Therefore, early identification of major risk factors for cardiovascular diseases, and also initiating early strategies to prevent cardiovascular related morbidity and mortality, are crucial in people with SMI. (Impact)
6. My one thing is I continue to be interested and want to be a student. I don't want to be a master. When I'm learning something, I'm in my element. Chick Corea
7. when people look at a tree, they look at the leaves; they don't look at the spaces between the leaves. They're focused on the tree. I think there's an awareness of spaces or it wouldn't look like a tree to them. Keith Jarrett
8. You are never more than a half-step away from a right note. Victor Wooten
