

New developments in sacral neuromodulation for lower urinary tract dysfunction

Citation for published version (APA):

Marcelissen, T. A. T. (2011). *New developments in sacral neuromodulation for lower urinary tract dysfunction*. Maastricht University. <https://doi.org/10.26481/dis.20110930tm>

Document status and date:

Published: 01/01/2011

DOI:

[10.26481/dis.20110930tm](https://doi.org/10.26481/dis.20110930tm)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

New Developments in Sacral Neuromodulation for Lower Urinary Tract Dysfunction

1. De tined lead procedure is een minimaal invasieve techniek die veilig en effectief is op de lange termijn –*dit proefschrift*
2. Het therapeutisch effect van sacrale neuromodulatie (SNM) is onafhankelijk van de gebruikte screeningsmethode. –*dit proefschrift*
3. Dubbelzijdige sacrale zenuwstimulatie is effectief bij sommige patiënten met afname van het therapeutisch effect van SNM. –*dit proefschrift*
4. Aanpassing van de stimulatiefrequentie kan het therapeutisch effect van SNM beïnvloeden. –*dit proefschrift*
5. Patiënten met een psychiatrische aandoening in de voorgeschiedenis hebben een hogere kans op complicaties na implantatie. –*dit proefschrift*
6. Sacrale neuromodulatie heeft niets te maken met religie.
7. Electricity is actually made up of extremely tiny particles called electrons that you cannot see with the naked eye unless you have been drinking. –*Dave Barry*
8. De lengte van een film moet in direct verband staan met het uithoudingsvermogen van de menselijke blaas. –*Alfred Hitchcock*
9. What is a scientist after all? It is a curious man looking through a keyhole, the keyhole of nature, trying to know what's going on. –*Jacques Cousteau*
10. Never trust a doctor whose office plants have died.
